Scope of Work/Specifications

- 1 SAHA/Beacon Communities requires the inspection, evaluation and repair and/or stabilization of the foundation of building #4 in the Villa De Valencia Apartments located at 13656 O'Connor Road, San Antonio, TX 78233. See Attached Diagram.
- 2 The foundation is a reinforced concrete slab and/or post tension slab.
- 3 The property may be viewed by going to the property location. If viewing at times other than the indicated site visit date, vendors must check in with property management and should be aware that interior access may not be available.
- 4 The intent and purpose is to address the movement of the slab by raising/stabilizing the affected area(s) and to stabilize and prevent further damage and movement.
- 5 Stabilization shall be accomplished utilizing either driven steel piers or helical steel piers.
- 6 Contractor(s) shall comply with all applicable federal, state and local laws, rules, regulations, ordinances and codes and obtain any licenses or permits required to provide the services under this IFB.
- 7 Steel piles/piers and attachments shall be new and unused and of sufficient strength and diameter to support structure.
- 8 The piers shall be purpose built/manufactured for use as building support piers; the use of re-purposed oil field pipe is not an acceptable product.
- 9 A Certified Foundation Repair Specialist or a Registered Professional Engineer shall complete all slab inspections.
- 10 Prior to repair Contractor shall provide SAHA with a repair plan that includes a diagram of the slab showing the elevations recorded, a separate diagram showing the placement of piers, posts or walls to be installed or replaced, and a letter signed by a Registered Professional Engineer, experienced in foundation design and repair, showing concurrence with the findings and the proposed solution.
- 11 Contractor shall include as a part of their stabilization and repair a pre and post leveling static test of the structures sewer system and pre and post leveling test of the fresh water delivery system to determine the presence of leaks. Concrete Slab post level testing shall be concluded prior to re-finishing the slab and/or filling in the pier pits.
- 12 Contractor shall immediately cease work and advise SAHA if any condition is found that leads the Contractor to believe that the foundation is compromised, sub-standard, faulty or in violation of code or common design principles.
- 13 Upon completion of the stabilization work any leaks or faults in the sewer or potable water systems shall be repaired.
- 14 Upon completion of the work the contractor shall provide a letter/affidavit signed by a registered professional engineer that the work performed was completed in accordance with recommendations and is consistent with accepted industry standards and detailing any post work maintenance and/or tests that should be conducted by the owner.

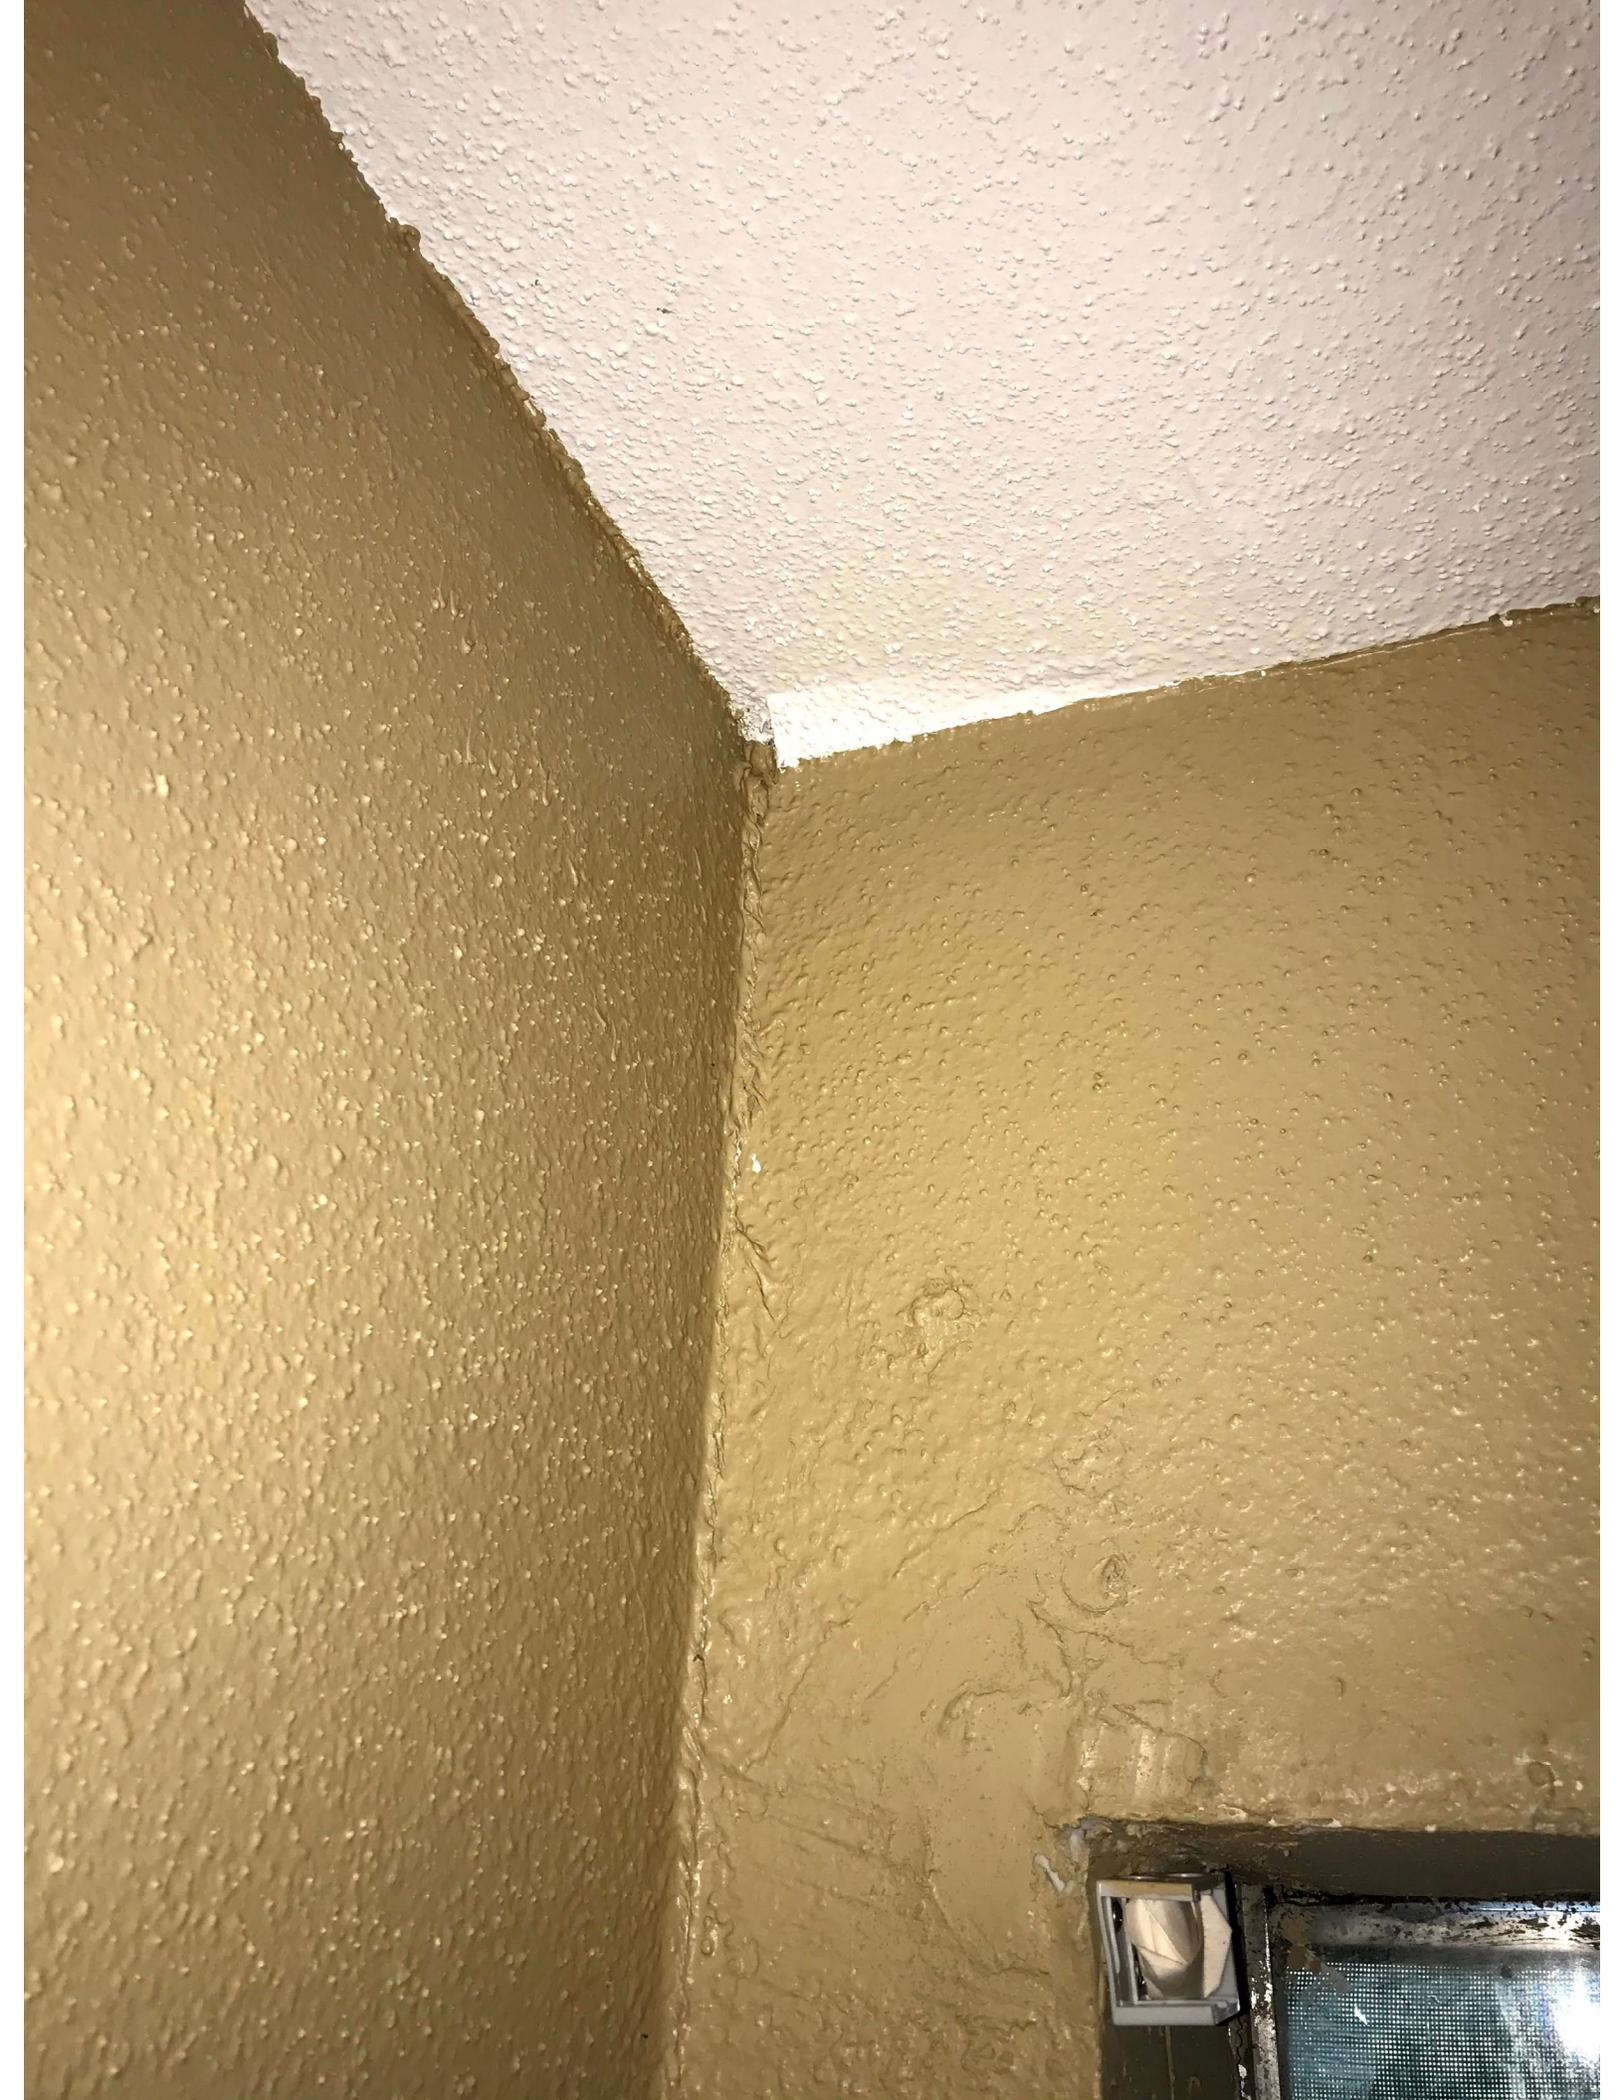

- 15 Contractor is not required to bring foundation to perfect level but is required to stabilize and return the foundation as close as possible to its original elevation. The work shall be performed taking prudent care to prevent damage to the foundation or the structure excluding minor damage to interior sheetrock or exterior siding caused by the movement of the foundation occurring during the raising and stabilization.
- 16 Contractor shall limit damage to the landscaping and save any grass, shrubs, bushes and/or decorative plants required to be removed to accomplish the work. Upon completion of the work, Contractor shall return the landscape as closely as possible to the pre-work condition or better. Contractor is not required to guarantee the removed items will continue to thrive but is required to take all reasonable care and effort to maintain their viability.
- 17 Contractor shall repair all cuts/penetrations in concrete slabs and shall insure the repairs are as close to the finish of the original slab as possible and that such repairs are at the same level as the surrounding concrete. The Contractor shall repair and/or replace any rebar moved or removed to accomplish the cut. Care will be taken to not cut or damage cables in post tension slabs. If damaged or cut it shall be the Contractor's responsibility to replace the damaged or cut cable and return it to the required tension setting.
- 18 Contractor shall be responsible for the removal of all excess soil, debris and waste unless specifically directed otherwise by the SAHA project manager.
- 19 Contractor shall provide a minimum warranty for the stabilization of not less than 5 years and will provide for minor adjustments during the warranty period. All other work shall have a two year warranty from the date of final acceptance.
- 20 Warranty periods longer than the above minimum may be a "Best Value" consideration in the award. Beacon Management will be the sole determiner of "Best Value" and its acceptance or rejection.
- 21 The building recently underwent major plumbing repairs which required tunneling. The tunnels have been left open to facilitate the pier placements. The awarded foundation contractor will be responsible for the back fill and closure of the tunnel(s) under their work area. The plumbing contractor will close any unused portions as part of their contract
- 22 Contractor is not responsible for the interior or exterior cosmetic repairs caused by the current shifting; these will be done by Beacon staff or through other contracts.
- 23 If any of the AC condensers require removal to accomplish the work Beacon staff will remove, store and re-install at the conclusion of the work. Contractor will coordinate with Beacon HVAC maintenance staff.
- 24 Attached diagram indicates the approximate locations of prior foundation work. SAHA makes no guarantee as to the accuracy of any information contained in the diagram as it was obtained from outside sources.

HUD & Other Forms

TABLE 5.1 MANDATORY CONTRACT CLAUSES FOR SMALL PURCHASES OTHER THAN CONSTRUCTION

The following contract clauses are required in contracts pursuant to **24 CFR 85.36(i) and Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act**. HUD is permitted to require changes, remedies, changed conditions, access and records retention, suspension of work, and other clauses approved by the Office of Federal Procurement Policy. The PHA and contractor is also subject to other Federal laws including the U.S. Housing Act of 1937, as amended, Federal regulations, and state law and regulations.

Examination and Retention of Contractor's Records. The PHA, HUD, or Comptroller General of the United States, or any of their duly authorized representatives shall, until three years after final payment under this contract, have access to and the right to examine any of the Contractor's directly pertinent books, documents, papers, or other records involving transactions related to this contract for the purpose of making audit, examination, excerpts, and transcriptions.

Right in Data and Patent Rights (Ownership and Proprietary Interest). The PHA shall have exclusive ownership of, all proprietary interest in, and the right to full and exclusive possession of all information, materials, and documents discovered or produced by Contractor pursuant to the terms of this Contract, including, but not limited to, reports, memoranda or letters concerning the research and reporting tasks of the Contract.

Energy Efficiency. The Contractor shall comply with all mandatory standards and policies relating to energy efficiency which are contained in the energy conservation plan issued in compliance with the Energy Policy and Conservation Act (Pub.L. 94-163) for the State in which the work under this contract is performed.

Procurement of Recovered Materials

(a) In accordance with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act, the Contractor shall procure items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition. The Contractor shall procure items designated in the EPA guidelines that contain the highest percentage of recovered materials practicable unless the Contractor determines that such items: (1) are not reasonably available in a reasonable period of time; (2) fail to meet reasonable performance standards, which shall be determined on the basis of the guidelines of the National Institute of Standards and Technology, if applicable to the item; or (3) are only available at an unreasonable price. (b) Paragraph (a) of this clause shall apply to items purchased under this contract where: (1) the Contractor purchases in excess of \$10,000 of the item under this contract; or (2) during the preceding Federal fiscal year, the Contractor: (i) purchased any amount of the items for use under a contract that was funded with Federal appropriations and was with a Federal agency or a State agency or agency of a political subdivision of a State; and (ii) purchased a total of in excess of \$10,000 of the item both under and outside that contract.

Termination for Cause and for Convenience (contracts of \$10,000 or more).

(a) The PHA may terminate this contract in whole, or from time to time in part, for the PHA's convenience or the failure of the Contractor to fulfill the contract obligations (cause/default). The PHA shall terminate by delivering to the Contractor a written Notice of Termination specifying the nature, extent, and effective date of the termination. Upon receipt of the notice, the Contractor shall: (1) immediately discontinue all services affected (unless the notice directs otherwise), and (2) deliver to the PHA all information, reports, papers, and other materials accumulated or generated in performing the contract, whether completed or in process.

(b) If the termination is for the convenience of the PHA, the PHA shall be liable only for payment for services rendered before the effective date of the termination.

(c) If the termination is due to the failure of the Contractor to fulfill its obligations under the contract (cause/default), the PHA may (1) require the Contractor to deliver to it, in the manner and to the extent directed by the PHA, any work described in the Notice of Termination; (2) take over the work and prosecute the same to completion by contract of otherwise, and the Contractor shall be liable for any additional cost incurred by the PHA; and (3) withhold any payments to the Contractor, for the purpose of set-off or partial payment, as the case may be, of amounts owned by the PHA by the Contractor. In the event of termination for cause/default, the PHA shall be liable to the Contractor for reasonable costs incurred by the Contractor before the effective date of the termination. Any dispute shall be decided by the Contracting Officer.
