## ADDENDUM # 1

To: File 2105-961-04-5126

QQ for: Mosaic Artwork for Victoria Plaza

---

The following questions are asked:

**Question 1:** The proposed, total 196.5 sqft reflects two panels at 48"x 72" and one panel at 35" x 72" The photographs of the existing art appear to show that each set currently has four panels: 48" + 48" + 48" + 35". Please allow this email to serve as an inquiry as to whether new measurements mean that the proposed new art will be:

\*\* Oriented to the far right, eliminating the present panel #1?

or

\*\* Centered, with 24" on the left and right to make up the missing 24sqft per set, total 72 eliminated sqft?

**Answer 1:** The new artwork will fill the same space occupied by the existing artwork. Each of the three sections contains the following sized panels:

3 panels measuring approximately 48 inches X 72 inches

1 panel measuring approximately 35 inches X 72 inches

48 inches X 72 inches X 9 panels = 31,104 /144 = 216.00 square feet

35 inches X 72 inches X 3 panels = 7,560/ 144 = 52.50 square feet

268.50 total square feet

The new artwork will have to fit in the existing opening, as the window framing will not be replaced.
